

#Jewelbots Build at TechBash!!!

Looking for a fun way to spark your child's interest in coding?

#JewelbotsBuild at TechBash will have:

- An entry-level coding workshop geared towards kids (also fun for grownups)
 - Facepainting
 - Coding for Arduino!
 - A Craft Table
 - Learning and fun for all ages!
-

#JewelbotsBuild is a hands on event for kids and adults ages 8 and up to dig in and learn and code C++ via the Jewelbots API. The goal of the event to introduce adults and kids alike to the fun and magic of coding while learning about connected hardware and making new friends!

#JewelbotsBuild is a formula for a fun, inclusive family friendly event for experienced coders and newbies alike.
